Report on the working of the Mysore Merchandise marks Regulation of 1892 for the year 1912-13.

&c&c&c&c&c&c&c&c&c&c&c&c

It is reported by the District Superintendent of Police, Tumkur, that in all 9 shops were inspected by him during the year under report, 2 at Chickanayakanahalli, 4 at Gubbi, 2 at Kunigal and one at Turuvekere.

In all, 18 articles were examined and the measurements etc., found to tally with the trade marks.

The measures of length produced at the time of inspection were various and varied. In many instances, iron bands used for piece goods bales and others were found to have been cut and marked with different lengths thereon, to serve as measures of length. It seems desirable that standard measures of length with Government stamps thereon should be introduced all over to secure uniformity and prevent fraud.

No precautions were instituted during the year under report for any infringement of the provisions of the Regulation.
